# KERBISHER & MALT

OUR CHEFS COOK EVERYTHING TO ORDER.  
CHOOSE FROM BATTERED, GRILLED OR MATZO MEAL.

## HADDOCK

In our opinion (and most of the north of the UK) this is the supreme fish to eat chips with. A white flaky-textured fish with a distinctive slightly sweet taste.

## COD

The most popular fish in the UK, Cod has a subtle flavour and dense pearly-white moist flakes. We buy mature, large cod and portion it into thick, rectangular portions.

## POLLOCK

Another member of the Cod family (along with Haddock & Coley), Pollock is a white flaky fish that makes an excellent and increasingly popular sustainable alternative for Cod.

## COLEY

Like Pollock, Coley is championed as a more sustainable alternative to Cod. It's a slightly meatier fish than Cod, but with a very similar flavour.

## PLAICE

A flat fish, with a very soft and delicate texture and a mild sweet flavour. This is the only fish that we cook with the skin still on and is a popular grilled option.
